Here at Ultratech Logistics we are committed to our customers and nothing is too much trouble, we pride ourselves on the quality of our solutions and our response time to our customer's requirements.

Prefabricated - low cost modular homes

Our modular homes are built in a controlled factory setting, which allows us to keep costs low and ensure consistent quality. We use only the highest quality materials and construction methods, and our modular homes are built to meet all applicable building codes.

Benefits of Our Prefabricated Low Cost Modular Homes

- ✓ **Affordable:** Prefabricated modular homes are often more affordable than traditional stick-built homes. This is because they are built in a factory setting, which allows us to take advantage of economies of scale and reduce waste.
- ✓ **Durable:** Prefabricated modular homes are built to last. They are constructed using high-quality materials and construction methods, and they are designed to withstand the elements.
- ✓ **Energy-efficient:** Prefabricated modular homes are typically more energy-efficient than traditional homes. This is because they are built with a tight thermal envelope and high-performance insulation.
- ✓ **Quick to build:** Prefabricated modular homes can be built in a fraction of the time it takes to build a traditional home. This is because the modules are built in a factory setting and then assembled on site.
- ✓ **Customizable:** Prefabricated modular homes can be customized to meet your specific needs and budget. We offer a wide range of floor plans to choose from, and we can also build custom modular homes to your specifications.
